

Global Internship Programme (GIP)

The Global Internship Programme is created jointly by the Malaysian Chamber of Commerce (Hong Kong & Macau) (MAYCHAM) and Global Malaysian Network (GMN) to provide well deserved Malaysian students / graduates around the world to experience working in different countries to build international friendship, business/ working acumen and survival skills. It is our collective way to Pay Forward and help build the exposure and experience of next generation Malaysians. It is also our hope our interns would be able to add diversity and value to the gracious employers

In this programme, MAYCHAM and GMN act as an intermediary to provide a suitable platform for potential employers to share working / internship opportunities and for interested students/graduates to source and apply for the opportunities directly with potential employers
