About Tsinghua University PBC School of Finance

On March 29, 2012, the PBC School of Finance at Tsinghua University (Tsinghua PBCSF) was founded. The School was first established three decades ago as the Graduate School of the People's Bank of China, which had already been an intellectual home to some of Asia's finest financial minds.

Building on the success of its predecessor, Tsinghua PBCSF has introduced outstanding faculty, partnered with world leaders in business education, and forged strategic partnerships with renowned institutions to break new ground in financial education and research. With its unparalleled access to Tsinghua University's substantial academic resources and close connections with the financial industry, the School continues to act as a platform for the cultivation of innovative financial talent, as well as the home of China's top financial think tank.

The B&R EMBA Program for Southeast Asia offered by Tsinghua PBCSF, adopts an educational approach that is closely aligned with the demands of China's financial reforms. Building on a wealth of educational and industrial resources, the Program enjoys an unparalleled faculty composed mostly of regulatory officials and industry elites.

We look forward to having your kind presence at our event and wish you all the best!

Sincere thanks and best regards,

Tsinghua University PBCSF
